

MARQUALIT LOTUS 2

- Paint
- Single-component

Solvent-based paint for high-adhesion urban and road marking.

Environment

Urban

Roads & Highways

Performances

Anti slip

ADVANTAGES

- High durability : certified at 1 million rollovers.
- Good level of grip for user safety.
- Paint based on non-aromatic and non-harmful solvents: preservation of users' health.
- Drop-on : easy to apply

PERFORMANCES, CERTIFICATIONS AND CONSUMPTIONS

Performances	P5 Q2 R3 S3
Certifications	1RH942S3
Product Dosing	610 g/m ²
Dosing Drop-on	370 g/m ²
Drop-on	G600 125 AC02 POTTERS

Application

Airless

CONDITIONS FOR USE

■ Application

After stirring, the paint is ready to use. Apply in a single pass and drop-on immediately with microbeads.

• Support

New or old hydrocarbon pavements.

• Road surface temperature

5°C < T < 40°C

• Maximum hydrometry

80 %

• Cleaning

Methyl Ethyl Ketone (MEK).

• Dilution

If necessary, add max. 1% thinner VG40. Do not use other thinners.

■ Storage

Protected from sunlight and frost, the paint will keep for 6 months in its original packaging. The reference is the manufacturing date affixed to the packaging.

MARQUALIT LOTUS 2

PACKING

Marqualit Lotus 2

Drum of 25 kg

Barrel of 250 kg

TECHNICAL CHARACTERISTICS

Color	White
Luminance	> 80 (Y) Qd > 100 mcd.m-2.lx-1 (class Q2)
Retroreflection	RL > 150 mcd.m-2.lx-1 (class R3)
Skid resistance	SRT > 0,55 (classe S3)
Viscosity	80-85 KU (20°C)
Density	approx. 1,43 g/cm ³
Curing time	approx. 10 minutes (ASTM D711-67)
Flashpoint	- 4°C
Application	Pneumatic or airless machine (60 mesh filter) equipped with a tank and stainless steel circuit

SAFETY- ENVIRONMENT

Flammable product for professional use.

Soiled packaging, cleaning and rinsing products are waste to be treated according to current regulations.

Contact our sales department to consult the Safety Data Sheet.
